## Profiter du dynamisme des marchés

## Le profil type de risque et rendement : DYNAMIQUE

- > Ce profil permet de connaître les risques et rendement potentiels liés au fonds (perte de capital, rendement nul...) avec un niveau de 5 à 6. L'indicateur DICI (Document d'Information Clé) pour l'Investisseur symbolise le profil de risque et de rendement par une échelle allant de 1 à 7.
- > Le score indiqué est une estimation du niveau de risque ainsi que du potentiel de rendement du fonds en utilisant l'indicateur « volatilité », mesurée par la variation moyenne de sa valeur sur les 5 dernières années. Cet indicateur traduit la tendance du fonds à fluctuer, plus ou moins fortement, à la hausse ou à la baisse. Un rendement est toujours lié à une prise de risque.

L'investissement sur les marchés boursiers s'adresse à des investisseurs souhaitant valoriser leur capital et qui acceptent en contrepartie un risque de perte en capital. Avant toute décision d'investissement, veuillez-vous reporter à la rubrique facteurs de risque des prospectus ou DICI pour les Fonds de droit français et/ou la version française approuvée par les autorités de tutelles luxembourgeoise, irlandaise, autrichienne et anglaise. Lisez attentivement dans le DICI ou le prospectus la partie relative aux frais. Elle vous indiquera les frais maximaux d'entrée et de sortie, les frais courants (frais de gestion, commission de mouvement) et la commission de superformance.

Le placement en Bourse est risqué, vous pouvez subir des pertes. Les performances passées ne préjugent pas des performances futures, ne sont pas constantes dans le temps et ne constituent en aucun cas une garantie future de performance ou de capital.

Avant d'investir, nous vous invitons à comparer les fonds afin de choisir le produit qui correspond le mieux à votre expérience, à vos besoins et à vos objectifs personnels (notamment en termes de degré d'acceptation du risque de perte en capital et de durée d'investissement envisagée) et d'adapter le montant investi à votre situation financière. Pour cela, lisez les DICI, ainsi que la note détaillée (ou la notice d'information le cas échéant) et le règlement ou les statuts de l'OPC. Ces documents vous aideront à comprendre le Fonds et à prendre connaissance de ses différentes caractéristiques (frais, modalités de rachat, objectifs d'investissement, profil de risque et de rendement, etc...).
